

VERTICAL TAPE GAUGES & DISPLAYS

OVERHAUL • REPAIR • EXCHANGE

Pacific Southwest Instruments (PSI), with headquarters in Corona CA, is excited to announce our continued support of the Cessna Citation 500/501/550/551/S550/560 series Aircraft Legacy Instruments. Being an industry leader in the field of aircraft instrument repair, overhaul and exchange, PSI takes pride in providing customers with value-added services and lowering overall operating costs.

Through innovative engineering solutions, we have developed processes to prolong the life of the Citation Analog Vertical Tape Gauges and Displays. This holds true with our long-standing reputation of supplying a DER replacement option for the LCD's in the following indicators:
